Process view: Introduction and Overview

How to proceed

1. Read **Goals and benefits** (1.1): oneSCM combines price information, quote, application, contract and management in one system.
2. Position the project (1.2): oneSCM replaces legacy systems and maps the contract process for **Cars and Vans** uniformly.
3. Identify your **role** (1.3 and 1.4) and the related chapters:
   - Dealer: Chapters 4 to 8 and 10
   - MO: Chapters 9 and 10
   - Market: Chapter 14
   - HQ: Chapter 15

! **Country-specific deviations** from the Blueprint are only valid if they are documented and approved in the country deviation register (Chapter 20.6).

4. Understand the **business domains** (1.5): customer, vehicle, product, contract, payment and document are interlinked.
5. Note **standard and deviation** (1.6): The Blueprint applies globally; country deviations are documented in the register (Chapter 20).

Note: This Quick Guide summarizes Chapter 1 of the oneSCM handbook. Details, screenshots and evidence can be found in the handbook.
