oneSCM – Access, Roles and Authorizations

oneSCM *for Vans*

Purpose and benefit

You log in via **Single Sign-on**, check your **business role** and **technical authorizations**, and know how to **request** missing rights and solve access issues (Chapter 2.1 to 2.6).

2

Chapter 2 of 23

Access and navigation

This document is interactive – references to handbook chapters and systems are provided as links.

Topics at a glance

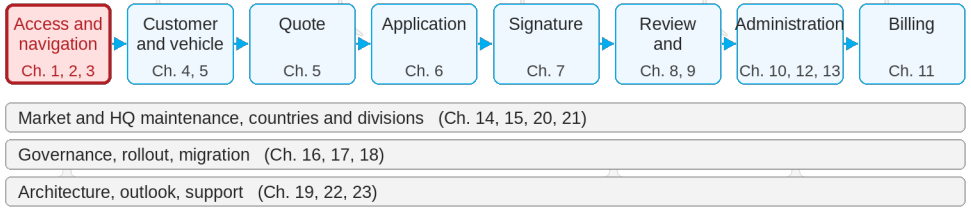

2.1 – 2.3 Login and roles

- Login and Single Sign-on
- Business roles and technical authorizations
- Authorization request and approval

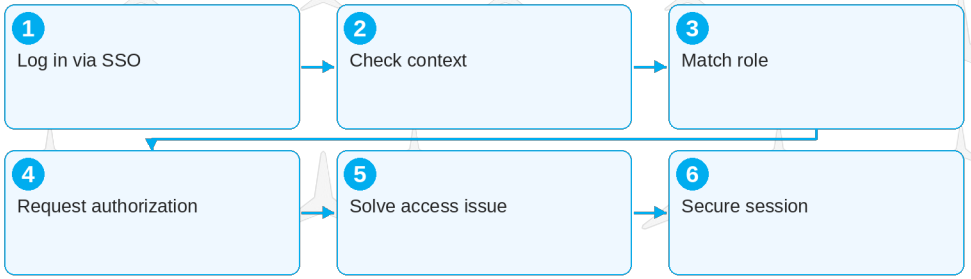

2.4 – 2.6 Context and security

- Check market, division and dealership context
- Missing authorizations and access issues
- Secure handling of user account and session

oneSCM process map – position of Chapter 2

Process view: Access, Roles and Authorizations

How to proceed

1. Open oneSCM via RetailPortal or via the direct link. Login is via **Single Sign-on** (2.1).
2. After login, check your **market, division and dealership context** (2.4): A wrong context means wrong products and prices.
3. Match your **business role** against your **technical authorizations** (2.2). Missing menu items indicate missing roles.

> ! **Authorizations are never granted by e-mail or verbal request.** Every role is requested, reviewed and approved via ALICE; the approval is documented traceably.

4. If an authorization is missing, submit the **authorization request** via ALICE (2.3). In the dealership, the **ALICE dealership admin** grants access.
5. For access issues (2.5): clear the browser cache, log in again, then report a support case with user ID and screenshot.
6. Lock your session when away and never share your account with others (2.6).

Note: This Quick Guide summarizes Chapter 2 of the oneSCM handbook. Details, screenshots and evidence can be found in the handbook.

oneSCM – Access, Roles and Authorizations

oneSCM *for Vans*

Roles and prerequisites

Roles involved

- **User**: login, context check, authorization request
- **ALICE dealership admin**: activation of roles in the dealership
- **Market/HQ**: role model and approvals

Prerequisites

- Valid user account in the corporate directory
- Assigned oneSCM role (e.g. oneSCM.DealerVAN)
- Access via RetailPortal or direct link

Checklist before completion

- ☐ Login via SSO works
- ☐ Market, division and dealership are correct
- ☐ All required menu items are visible
- ☐ Contact person for ALICE is known

Notes and pitfalls

- The oneSCM.DealerVAN role is a prerequisite for application creation in the Vans business.
- After a role change, you need to log in again.
- Multiple markets or divisions require multiple role assignments.

Frequently asked questions and answers

- **Why can't I see the Contract Creation menu item?** The related role is missing. Request it via ALICE from your dealership admin.
- **How long does an approval take?** Approval is given by the responsible admin; you can see the current status in the authorization request.
- **Can I have multiple roles?** Yes, for example Dealer roles for Cars and Vans; the active context is shown in oneSCM.

Important links and contacts

- ALICE – authorization management – Role request and approval (Chapter 19.16).
- oneSCM RetailPortal – System news and training material.
- oneSCM handbook – Complete chapters with screenshots, role, status and scope matrices (Appendix D).
- **Support and escalation** – Report a support case with reference number, market, division and screenshot (Chapter 23.4 and 23.5).

Note: This Quick Guide summarizes Chapter 2 of the oneSCM handbook. Details, screenshots and evidence can be found in the handbook.
